Important to Intending Purchasers

E take pleasure in submitting to our patrons and the public a choice selection of Peonies, Phloxes, Irises, which may be planted with best results in September, although if it be inconvenient to plant so early, the planting may be deferred till October without detriment.

So much interest has been manifested in these plants the last few years, that we have greatly enlarged our collections by securing at home and abroad the choicest varieties, and we can recommend them, assuring our patrons that they will give satisfaction.

In addition to our general list of Roses, we offer many new kinds, and we invite all rose lovers to send for our Catalogue containing full and accurate descriptions. Snow Queen, or Frau Karl Druschki, has proved to be the best Hardy White Rose, far exceeding our expectations. The New Climbing Roses are particularly valuable.

In both the Fruit and Ornamental as well as in the Rose Departments our Nurseries are kept fully up to the times. We procure as soon as introduced every novelty that promises to be worthy of dissemination and carefully test it in our trial grounds, sending out only such introductions as prove meritorious.

Intending purchasers are requested to send for our General Catalogue of Fruit and Ornamental Trees, Flowering Shrubs, Hardy Roses, Perennials (104 pp.), beautifully illustrated and containing planting directions.

Grateful for the liberal patronage which we have enjoyed for upwards of seventy years, we solicit a continuance of the same.

ELLWANGER & BARRY,
Rochester, N. Y.

August, 1908.

Specialties for Fall Planting

HERBACEOUS PEONIES

A NOBLE flower, almost rivaling the rose in brilliancy of color and perfection of bloom, and the Rhododendron in stately growth. The first point in its favor is hardiness. It may be truly said to be "hardy as an oak." In the severest climate the plants require no other protection than that which they afford themselves. Then their vigorous habit and healthy growth, freedom from all diseases and insects are important arguments in favor of their cultivation. Each succeeding year adds to their size and beauty. The foliage is rich and glossy and of a beautiful deep green color, thus rendering the plants very ornamental even when out of flower. The newer varieties produce very large, handsome, regularly formed cupped blooms resembling large roses. No other flower is so well adapted for large, showy bouquets. The Peony may be planted either singly on the lawn or in borders. Where the lawn is extensive a large bed makes a grand show, surpassing a bed of Rhododendrons. It is really a flower for the million. They blossom early in June. Our collection has been made with great care and includes the best and most distinct varieties.

OFFICINALIS VARIETIES (Earliest to Flower)

Rubra. Double crimson; of large size; fragrant, the old-fashioned early Red Peony. One of the best. 50c.

Tenuifolia flore pleno. Double, fennel-leaved; flowers of a bright scarlet crimson, and quite double and globular; rare and fine. \$1.00.

CHINESE VARIETIES

Albert Crousse. Flesh pink, a rare shade; very full. \$2.00.

Amazona. Creamy white, yellowish center; some petals striped carmine. \$2.00.

Ambroise Verschaffelt. Purplish crimson; very full, flower fragrant. One of the finest. 50c.

Arthemise. Rose of several tints; good form. 50c.

Atrosanguinea. Purplish red, tinted with violet. 50c.

Auguste Lemonnier. Velvety red; large, full and beautiful. 50c.

Augustin D'Hour. Very full, scarlet purple. \$1.50.

Baroness Schroeder. Flesh, changing to white; very full. Very rare. \$5.00.

Beaute Francais. Light flesh pink, fragrant; early. \$1.00.

Bernard Palissy. Flowers flesh white; well formed, very double; fragrant; very fine. \$1.00.

Charles Binder. Bright deep pink; fragrant; good. 75c.

Charles Verdier. Light lilac rose; very large, and of perfect form; a superb variety; late. 50c.

Charlemagne. Very double, imbricated; flesh white, center tinted lilac and chamois; fragrant; one of the best. Late. \$1.00.

Claire Dubois. Light rosy pink; late. Very large and full. Extra. \$1.50.

Constant Devred. Soft clear purple, imbricated like a rose; fragrant; superb. \$1.00.

Couronne d'Or. Very double, yellowish white; center petals with light carmine edges; superb; very late. \$2.00.

Daniel d'Albert. Deep rose, shaded purple; large globular flower. 50c.

- De Candolle.* Currant red, tinged amaranth; very large and very double. Extra. \$1.00.
- Delacheii.* Dark purplish crimson; fine. 50c.
- Delicatissima.* Delicate fine rose; very large, full and sweet. One of the best. Early. 50c.
- Denys Helye.* Dazzling red. \$1.50.
- Dr. Bretonneau.* Rosy pink; very large and fine; fragrant. 50c.
- Dorchester.* (Richardson.) Very double; cream tinged, pink, fragrant; extra. \$1.00.
- Eduis, or fragrans.* Violet rose, all of one color; very full and sweet. 50c.
- Eugene Verdier.* Salmon pink, nearly white; fine form; large; fragrant; late; extra. \$1.50.
- Felix Crousse.* Brilliant red; large ball-shaped flower. Extra. \$1.00.
- Festiva.* Pure white, with a few marks of carmine in the center; perfectly globular; beautiful and sweet. 75c.
- Festiva maxima.* Resembles the preceding, but flowers are much larger, and in clusters; fragrant. The finest early white Peony. \$1.00.
- Francois Ortegat.* Purplish crimson; fine. \$1.00.
- Fulgida.* Crimson; profuse flowering; extra. 50c.
- Gen. Bertrand.* Rosy violet, center salmon; large and showy; very fine. 50c.
- Globosa.* Pure white; full, globular, large; beautiful; fragrant; 50c.
- Globosa grandiflora.* White, large, globular flowers; sweet; one of the best. 50c.
- Grandiflora carnea plena.* Very large; outside petals delicate blush; center fringed, yellowish; sweet and fine. Early. 50c.
- Henri Demay.* Violet purple; very large and full; fragrant; late; fine. 50c.
- Henri Laurent.* Rosy pink; large and fine; fragrant; late. 50c.
- Humei.* Rose pink; very large and showy, and one of the latest. 50c.
- Insignis.* Carmine rose; fine form; fragrant; good. 75c.
- Jeanne d'Arc.* Outside petals rose colored, inside straw colored, with crimson spots. Extra. \$1.00.
- Latipetela.* Outside petals flesh color; center ones yellowish white; large and fine. 50c.
- Livingstone.* Very double, pale pink; free flowering and late. Extra. \$2.00.
- Louis Van Houtte.* Dark crimson; very compact; one of the best of its color. 50c.
- Louis Van Houtte.* (Calot.) Bright purple cherry; large, globular and full; fragrant; superb. 50c.
- Madame Crousse.* Open flower, pure white center, occasionally marked with carmine; fine. \$1.00.
- Madame de Galhau.* Very large, soft flesh pink, shaded salmon. \$2.00.
- Madame Ducel.* Very large; salmon rose; beautiful. \$1.00.

- Madame Emile Galle.** Clear shell pink. \$2.00.
- Madame Emile Lemoine.** Very full, imbricated, pinkish white; extra fine. \$2.00.
- Madame Geissler.** Silvery rose; very large and full; fine form; one of the best. \$1.00.
- Madame Lebon.** Very large; bright cherry, some petals white; fragrant; good. 75c.
- Madame Victor Verdier.** Crimson rose, with light violet; very large and full; very fine; late. 50c.
- Mademoiselle Leonie Calot.** Soft salmon flesh, some petals tipped carmine; very fragrant; late. \$2.00.
- Mademoiselle R. Dessert.** Lilac, changing to silvery white. \$2.00.
- Marechal de MacMahon.** Rich violet red; fine. \$1.00.
- Marguerite Gerard.** Very large; flesh pink, changing to lighter shade. \$3.00.
- Marie Deroux.** Rose, shaded pink. \$1.50.
- Marie Lemoine.** (Calot.) Large; sulphur white; massive flower; strong stems; one of the finest; very late. \$2.00.
- Modeste Guerin.** Deep rose; bright, showy; very large, distinct and fine shaped; fragrant; one of the best. 50c.
- Monsieur Boucharlat.** Bright rosy lilac; large and full flower, imbricated like a rose; very late; fragrant; superb. 50c.
- Monsieur Dupont.** Sulphur white, carmine at center. \$2.00.
- Monsieur J. Elie.** Large, globular, glossy pink. Extra. \$2.00.
- Monsieur Martin Cahuzac.** Black maroon, the darkest in color. Rare. \$3.00.
- Norfolk.** (Richardson.) Rose pink, changing to nearly white. \$1.00.
- Papaveriflora.** White, lightly tinged with yellow and marked with red in the center; very fine. 50c.
- Papillionacea.** Outside petals rose, center ones yellow, changing to white; superb. 50c.
- Perfection.** (Richardson.) Pink, changing to flesh; fragrant; late. \$1.50.
- Purpurea superba.** Very large purplish-crimson flower, good shade; outside petals large; center small and compact; tall and showy; late. 50c.
- President Wilder.** (E. & B.) Flowers large and double; color delicate blush, with an occasional red spot; of dwarf habit; fine. 50c.
- Rubra superba.** (Richardson.) Dark crimson; late. Extra. \$1.00.
- Rubra triumphans.** Dark purplish crimson; petals large; very sweet; semi-double; fine. Early. 50c.
- Solfaterre.** Sulphur yellow; fine globular form; one of the best. \$1.00.
- Stanley.** Flesh pink; large, full, imbricated; fragrant. 50c.
- Therese.** Flesh, shaded pink; extra. \$3.00.
- Triomphe de l'Exposition de Lille.** Delicate rose; dwarf habit; fine. \$1.00.

- Triomphe du Nord.** Violet rose, shaded with lilac, a fine color; beautiful. 50c.
- Vicomtesse Belleval.** Blush, center creamy white, beautifully fringed; fragrant. 50c.
- Ville de Nancy.** Deep brilliant crimson; late; fine. 75c.
- Violacea.** Deep violet purple; very large and full; beautiful. 50c.
- Zoe Calot.** Delicate rose. \$2.00.

Special offer of Chinese Peonies for Fall, 1908

12 plants, our selection, 12 varieties	-	-	-	-	\$ 5.00
25 " " " " " "	-	-	-	-	10.00
50 " " " " " "	-	-	-	-	18.00
100 " " " 25 varieties	-	-	-	-	35.00

The above will be selected, distinct, varieties and good plants.

SINGLE HERBACEOUS PEONIES

We have a fine collection, embracing the choicest varieties to be obtained in this country and Europe. Now that single flowers are so popular these will be found invaluable; they cover a wide range of color, and blossom early.

- Japan Single White.** A magnificent variety from Japan with large, single white flowers, yellow stamens. \$1.50.
- Single Assorted.** Unique and beautiful. \$1.00.

HARDY PHLOXES

Are of vigorous habit, easy culture, and produce in great profusion during a long season flowers of fine form and substance, and of bright and varied colors. As regards their culture, it may be briefly stated that they succeed in any good garden soil, but they are greatly improved by being liberally manured, and an occasional supply of liquid manure during the growing season will greatly increase the size of their trusses. When in flower they should be watered freely every evening. The Phlox usually flowers in July and August, and in order to render it autumnal flowering, it is necessary to pinch the shoots about the first of June and again in July. The plants will then flower in September. For early flowers some of the plants may be left unpinched. When two years old the finest trusses are produced. The third year the plants flower tolerably well, but they will not keep thrifty and healthy after that. The old plants should then be lifted in the fall, divided and transplanted. But the better plan is to keep up a succession of young plants from cuttings by securing a fresh collection every year. We annually introduce all new and desirable varieties of home and foreign production. The best time to plant them is in the autumn. Our plants are large and fine.

Price, 25 cents each

- Amazona.** Large flower; pure white; fine.
- Belvidere.** Salmon pink; a choice sort.
- Caran d'Ache.** Bright carmine rose; distinct.
- Coquelicot.** One of the best; flowers large and of a fiery red color.
- Henri Murger.** Flowers very large; pure white, large carmine center; one of the finest.
- La Vague.** Large flower; silvery rose.
- Le Siecle.** Dwarf; large flower, compact panicle; salmon rose; fine.
- Le Vengeur.** Large flower; bright carmine amaranth; fine.
- Lothair.** Large flower; rich salmon color, crimson eye, large spreading spike; one of the finest varieties.
- Pantheon.** Flowers large, beautiful; pink or salmon rose; one of the best.

Parachute. Purple; blooms late.

Pharaon. Light purple, white star-shaped center; distinct.

Queen. Pure white; fine.

Richard Wallace. White with violet center; a good sort.

William Robinson. Flowers very large; pale salmon with rose center; fine.

The above collection, 1 each, for \$3.50; 25 plants for \$5.00; 100 for \$15.00.

A COLLECTION OF THE NEWER PHLOXES

Price 50 cents each. The collection for \$3.50

Anatole Le Braz. Large panicle, flowers round, carmine with white center.

Eiffel Tour. A beautiful pink, tall, superb.

Fernand Cortez. Large, coppery red, extra.

Frau Bosch Bader. Alabaster white, with large rosy red eye.

Louis Blanc. Flowers large, round, violet with white eye, fine.

Madagascar. Large flowers, mauve, with white star at center.

Mariette. Violet purple, beautiful.

Rubis. Large panicles, ruby color, extra.

GERMAN IRIS, or FLEUR DE LIS

Apollon. Golden yellow, striped with plum color; 18 inches. June. 25c.

Atropurpurea. Purple; one of the best. 25c.

Augustina. Deep yellow, marked with maroon, giving a coppery hue. 25c.

Bougere. Lilac and velvety purple; distinct; 18 inches. June. 25c.

Celeste. Delicate light lavender blue. 25c.

Common Purple. Purple; one of the best. 25c.

Deloismison. Lavender and purple; 2 feet. June. 25c.

Eugene Sue. Creamy white, with purple spots and stripes; 18 inches. June. 25c.

Falcata. Yellow, tinged with purple and purple stripes; 2 feet. June. 25c.

Florentina. White, tinged with blue and yellow; 2 feet. May. 25c.

Hector. Light bronze, stained with purple. Fine. 25c.

Ignititia. White, suffused with purple. 25c.

Jacquesiano. Deep maroon velvet, tinged with bronze and crimson; a rare and remarkable color; 2 feet. June. 25c.

Jordain. Deep purple, shaded with rose. 25c.

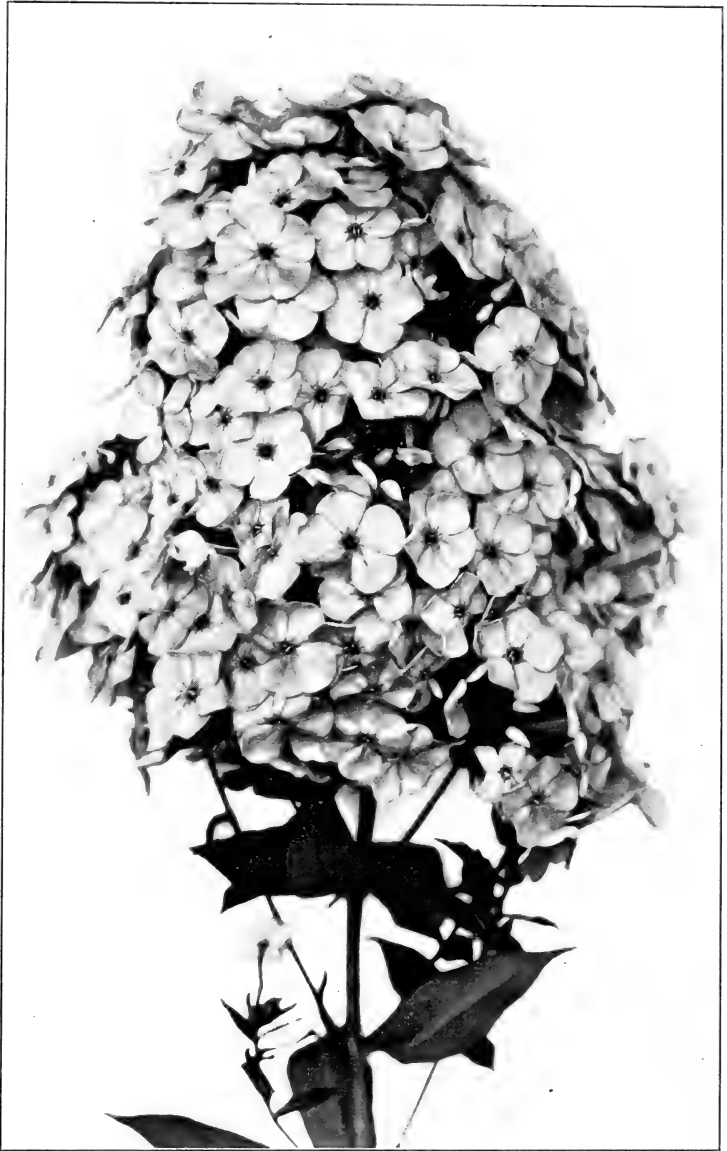

L'Avenir. Lavender, a beautiful shade. 25c.

Lemon. White, spotted with purple, and deep purple stripes; fine; 2 feet. 25c.

Liabaud. Yellow and maroon; fine. 25c.

CHINESE PEONY

PERENNIAL PHLOX

GERMAN IRIS

DOUBLE FLOWERED THORN
(Tree and Flowering Branch)

Louis Van Houtte. Salmon, tinged and striped with purple; 2 feet. June. 25c.

Madame Chereau. Clear white, handsomely feathered and bordered with blue; undulated edge; tall grower. 25c.

Pancrea. Buff and purple; distinct; fine. 25c.

Reticulata superba. Center lavender, outer purple; fine. June. 25c.

Sampson. Rich golden yellow; crimson maroon veined with white; fine. 25c.

Sappho. Clear blue and indigo, beautifully blended. 25c.

Silver King. Flowers silvery white; distinct and fine. 25c.

Special Offer of German Iris for Fall, 1908

25 plants, our selection, for	-	-	-	-	-	4.00
100 plants, our selection, for	-	-	-	-	-	15.00

JAPAN IRIS

Laevigata. (*Kämpferi*.) Flowers differ from the German Iris, in being broad and flat. They exhibit a wonderful variety of colors and shades and appear later than the others. They rank among the most desirable of hardy plants; succeed best in a moist soil; 3 to 4 feet. July. 25c.

OTHER SPECIES AND VARIETIES OF IRIS

Acorioides. Small yellow flowers; 2 feet. June. 25c.

Cristata. Pale blue; 6 inches. May. 25c.

Ochroleuca. Golden yellow; 2 feet. June. 25c.

Olbiensis var. alba. White; dwarf. May. 25c.

var. lutea. Golden yellow; dwarf. May. 25c.

Pallida var. odoratissima. Clear blue; large flowers; 2 feet. June. 25c.

Pseud-acorus. Bright yellow; 3 feet. June. 25c.

Pumila. Bluish purple; first to flower; 3 to 6 inches. April and May. 25c.

Siberica. Deep blue flowers in clusters on long stems; a most prolific bloomer and one of the choicest perennial plants. May. 25c.

BEAUTIFUL SUMMER FLOWERING SPIRAEA

Spiraea Anthony Waterer. A fine dwarf Spiraea bearing dark crimson flowers all summer. One of the finest shrubs. 35c.

PURPLE LEAVED JAPAN MAPLE

Dark Purple Leaved Japan Maple. The hardiest and altogether the best of the Japan Maples. One of the rarest and choicest small trees or shrubs for lawns. Foliage dark purple, deeply cut and very ornamental. We offer plants grown in tubs, insuring safe transplanting. \$3.00 to \$5.00.

LILAC NOVELTIES

New Lilacs. SINGLE AND DOUBLE. For years we have been collecting from various sources the best Lilacs, and take pleasure in now offering a selection embracing the best varieties known. We have imported annually the introductions of the celebrated French raiser, Mr. Lemoine, and have in stock the cream of his offerings.

The improvement in the Lilac, especially in the double sorts, during the last ten years is marvelous, and all lovers of this flower will be delighted with these novelties. In size, form and color they far surpass the old favorites, and we confidently recommend them to our patrons. Nothing that has been introduced recently is likely to prove so popular as these lilacs. As they usually start to grow very early in the spring, fall is the best time to plant them. See general catalogue for varieties and descriptions.

A NEW AND VALUABLE DEUTZIA

Deutzia Lemoinei. A fine shrub of dwarf habit. Flowers pure white and borne profusely in June. 35c.

HARDY CONTINUOUS FLOWERING WHITE HYDRANGEA

Hydrangea Arborescens Grandiflora Alba. This magnificent hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished. One of its most valuable characteristics is its coming into bloom just after the passing of all the early spring shrubs, while its long season of bloom from early June through August, renders it doubly valuable, not only to the florist, but to every owner of a garden; it is perfectly hardy, standing 20° below zero. The form of the panicle is much like that of *Hydrangea Hortensia*; the habit of the plant is excellent; it is bound to become the most widely grown and the most useful of all the *Hydrangeas*, and the most valuable shrub found in the American garden. \$1.00.

RARE NEW SHRUB OF SPECIAL VALUE

Single Japan Snowball. Flowers pure white, borne along the branches in flat cymes, in the greatest profusion, early in June. It is of good habit, perfectly hardy, vigorous and free-blooming. One of the most important and valuable of new shrubs. 50c.

NEW SPIRAEA—*Aitchisonii*

"Spiraea Aitchisonii (*S. angustifolia*) is certainly much more graceful and handsome than the old *Spiraea sorbifolia* and equals in beauty the tender *Spiraea Lindleyana*. It is a shrub attaining six feet in height or more, of rather loose and open habit, with graceful light green foliage and the usually red colored stems topped by ample and lax panicles of white flowers."—*Alfred Rehder, in Horticulture, July 18, 1908.* \$1.00.

SUPERB NEW HARDY ROSES—Climbing and Trailing

Tausendschon. (A THOUSAND BEAUTIES.) Flowers large, pink turning to bright rose and carmine; very showy. Sweet scented; trusses large. One of the best new climbing roses. \$1.00.

"Amongst the newer introductions, perhaps the most notable is Tausendschon. This variety possesses very large semi-double flowers, often three inches in diameter when fully expanded. They are produced freely in loose sprays of usually four. The flowers, in their bud state, resemble in shape those of the well-known Tea Rose Homer, and are of a rich carmine shade, sometimes almost crimson, changing to a delightful rosy-pink, with the absence of purple, when expanded, and shading to a delicate peach towards the center. The inner row of petals is slightly flaked with white.

"It has proved very hardy and equally as rampant in growth and as free in flowering as Crimson Rambler, which, in habit, it resembles. The foliage is of a deep glossy green, leather-like in substance and almost evergreen. The flowers are very persistent, a valuable feature, especially in Roses overhanging gravel walks, lawns, etc."—*From The Gardeners' Chronicle, London, July 11, 1908.*

Hiawatha. Another remarkable and beautiful climber, flowers single, bright crimson, large yellow stamens, producing a brilliant contrast—exceedingly free flowering—a Rose of great value. \$1.00.

Lady Gay. An ideal pink rose—flowers rose pink in clusters. An acquisition, destined to become a great favorite. 50c.

La Fiamma. Flowers single, flame colored, vigorous. \$1.00.

Special Attention is Also Directed to the Following Fine New Roses. See General Catalogue

J. B. CLARK, H. T., red. \$1.00

HUGH DICKSON, H. P.

URANIA, H. P., red. \$1.00

CLIMBING ROSES

HELENE

WALTHAM RAMBLER

RUBIN

FARQUHAR

BLUSH RAMBLER

LEUCHTSTERN

NEW JAPAN RUGOSA ROSES

(Hardest of all Roses, suited to the severest climates. They will succeed where other varieties fail.)

BLANC DOUBLE DE COUBERT, white

NOVA ZEMBLA, ivory white

NOTEWORTHY TREES FOR THE EMBELLISHMENT OF LAWNS

Schwedler's Purple Leaved Norway Maple. Rapid grower. Purple foliage. \$1.00.

Wier's Cut-Leaved Silver Maple. One of the handsomest lawn trees and specially recommended. A tree for immediate effect. 50c.

Linden Dasystyla. The most beautiful of all the Lindens. Tree of rapid growth, fine habit, and rich glossy foliage. As yet very little known, but it deserves the widest recognition. We direct special attention to this valuable tree for lawn planting. \$1.00.

A RARE AND VALUABLE LAWN TREE

Acer Tartarica Ginnala. (SIBERIAN MAPLE.) A beautiful hardy small tree, very little known and only slightly appreciated. It attains, when mature, medium size, and is of irregular rounded form, with handsome light colored, finely cut leaves which take on a purplish tint in the autumn. It is very handsome and easily transplanted, and deserves to be better known and extensively planted. \$1.00.

SAMBUCUS PUBENS MAXIMUS

(GREAT ELDER)

A striking new variety of Elder with immense heads of white flowers—showy and beautiful. \$1.00.

DOUBLE FLOWERED THORNS

Beautiful Flowering Trees deserving special attention.

Double Red Thorn. \$1.00.

Double White Thorn. \$1.00.

VALUABLE AMERICAN THORNS

Brought to notice by Dr. Sargent.

Crataegus Arnoldiana. A tree 15 to 20 ft. high at maturity. It has a good habit and large, fine foliage. It flowers during the last week of May, and the fruit ripens by the middle of August. A valuable tree strongly recommended. Trees 3 ft. high. \$1.00.

Crataegus Macrantha. Another interesting tree. Fruit ripens end of September. Trees 2 to 3 ft. high. \$1.00.

Crataegus Ellwangeriana. A showy tree flowering in May and ripening its fruit in September. 3 ft. \$1.00.

The Thorns succeed best when planted in the fall.

DOUBLE FLOWERED CHERRY, RHEXII

A very fine double white-flowered variety, covered at the blossoming season with flowers having the appearance of small roses. \$1.00.

TREES FOR IMMEDIATE EFFECT

To plant on lawns for shade or ornament, or on streets or avenues where rapid growth and immediate effects are desired.

Negundo Maple. (BOX ELDER.) 50c.

Soft Maple. (SILVER MAPLE.) 50c.

These trees we can strongly recommend.

NEW MARKET APPLE, BISMARCK

We have a fine stock of this large and showy new market apple. It bears very early and has special value for the orchardist on this account. While in quality it can be rated only as fair, it is a variety which merits attention on account of its large size, fine appearance and early bearing quality. 25c.

WINDSOR BLACK CHERRY

A delicious black cherry. Large, handsome and solid. We have many inquiries for the best black cherry and we unhesitatingly recommend this. 50c.

EVERGREENS

For Planting from August 15th to September 15th

Evergreens can be planted successfully from August 15th to September 15th. Frequent rains during the growing season have caused our trees to make an unusually fine growth and they are in the best condition for transplanting. List on request.

SPECIAL OFFER OF HARDY ROSES FOR FALL, 1908

In order to stimulate Fall Planting of Hardy Roses, which we are convinced by actual experience is the best season to plant, we make the following low priced offer:

12 plants, our selection, for	-	-	-	-	-	-	-	\$ 3.00
25 " " " "	-	-	-	-	-	-	-	6.00
50 " " " "	-	-	-	-	-	-	-	11.00
100 " " " "	-	-	-	-	-	-	-	20.00

The assortments offered at these low prices will be made up of distinct varieties and first-class plants. *Prices for purchasers' selection will be same as heretofore, viz., 50 cents each, \$3.50 per 10, \$25.00 per 100.*

SPECIMEN TREES FOR LAWNS

Large sized Ornamental Trees and Shrubs which have been grown in ample space and transplanted, and are in the best condition to plant for immediate effect. List on request.

SUMMER AND AUTUMN FLOWERING PERENNIALS

From May to the end of October the garden may be made very attractive with Hardy Perennials. Plantings of this kind last for a long time, becoming more interesting as the plants grow older and stronger. To secure a succession of bloom we recommend the following:

ARABIS (White Rock Cress)	IRIS JAPAN
CANDYTUFT	STOKESIA
ALYSSUM	ANTHEMIS
AUBRETIA (Purple Rock Cress)	DAISIES, large, improved
DWARF PHLOX (White and Pink)	DELPHINIUM
LILY OF THE VALLEY	MONARDA
TRILLIUM	HOLLYHOCK
DORONICUM	PERENNIAL SUNFLOWER
HEMEROCALLIS	ASTER
FOXGLOVE	ANEMONE
SPIRÆA	RUDBECKIA
IRIS GERMAN	HELIANTHUS
